EDUCATION

Dates (from – to)	14/01/2022 – 19/07/2023
Name and type of institution	Luiss Free International University for Social Studies Guido Carli, Rome, IT, School of Law
Main subjects	Cultural Heritage Law, Art Law
Qualification obtained	Master of Law (LL.M.) in Art Law, Second Level University Master
National classification level	ISCED 8
Description of activities	<p>Through lectures held by professionals such as museum directors, gallery owners, art dealers, superintendents, lawyers specialized in art law, architects, officials from international organizations, and academics, the master's program addressed various legal issues involved in the overall regulation of the art and cultural heritage sector. Topics covered included copyright law, protection of artworks, the art market, exhibitions and collections, circulation and protection of artworks under international and European legislation, disputes, and resolution systems.</p> <p>The thesis, titled Structural Engineering in the Framework of UNESCO World Heritage, supervised by Prof. Tullio Scovazzi from the University of Milano-Bicocca, explores structural engineering works within the context of the UNESCO World Heritage program. Specifically, it addresses the definition of structural engineering, the complexity in assessing their Outstanding Universal Value, their conservation, cases of removal from the World Heritage List, the concepts of authenticity and integrity in relation to the functionality of structures, the possibility of serial nominations, the presence of structural engineering works in the Tentative List, and comparisons with national legislations for their protection.</p>
Dates (from – to)	01/11/2017 – 18/07/2023
Name and type of institution	University of Kent, Canterbury, UK School of Architecture and Urban Planning
Main subjects	Architecture
Qualification obtained	PhD – Doctor of Philosophy in Architecture
National classification level	ISCED 8
Description of activities	<p>The PhD in Architecture from the Kent School of Architecture and Planning (KSAP) includes thematic areas such as architectural heritage conservation, history, theory, and philosophy of architecture. The doctoral research, conducted under a joint supervision agreement (double degree) with the University of Rome Tor Vergata, was supervised at the University of Kent by Professors Gerald Adler and Manolo Guerri. The examination committee for the University of Kent included Professors Alan Powers and Robert Proctor. The thesis, titled A Disturbing Influence: Directions and Cross-Confessional Inputs in English Church Architecture, 1945-1970, focuses on the evolution of British ecclesiastical architecture in the post-war period, from 1945 to 1970, with particular attention to Anglican churches. It examines liturgical innovations and their impact on church design, as well as cross-confessional influences in ecumenical design. Through analysis of projects, publications, and research groups on ecclesiastical architecture, the phenomenon is contextualized within the cultural and social contexts of post-war England, also considering continental influences. The research also includes analysis of the relationship between churches and urban communities, integrated into post-war urban development plans.</p>

CONTRACTED ACADEMIC RESEARCH ACTIVITY

Dates (from – to)	15/09/2023 – 14/09/2025
Employer name and address	Tor Vergata University of Rome Via Cracovia, 50, 00133 Rome, IT
Type of company or sector	University
Type of employment	Research Fellow, Law 240/2010, art. 22
Main duties and responsibilities	Within the project Virtual Reality/Immersive Reality for Teaching at ID:ALLTV, coordinated by Professor Tullia Iori within the Rome Technopole innovation ecosystem, I deepened the integration of new technologies in education, focusing on teaching and enhancing the built heritage. The use of these technologies was tested during tutoring activities for the courses Technical Architecture 2, Building Architecture, and Architecture Technology, taught by Professors Tullia Iori and Gianluca Capurso. I actively collaborated with the IAD school for distance learning and participated in inter-university working groups of Spoke 3 of Rome Technopole, dedicated to training. Additionally, I managed the organization and communication of the University of Rome Tor Vergata's training activities within the Rome Technopole.
Dates (from – to)	01/09/2022 – 31/08/2023
Employer name and address	Tor Vergata University of Rome Via Cracovia, 50, 00133 Rome, IT
Type of company or sector	University
Type of employment	Research Fellow, Law 240/2010, art. 22
Main duties and responsibilities	For the research fellowship within the Industrial Culture Map of Lazio project (coordinated by Marida Talamona and Maddalena Scimemi) involving the Universities of Roma Tre and Tor Vergata, along with the National Research Council, I collaborated in the research group at Rome Tor Vergata under the supervision of Professor Tullia Iori and Professor Gianluca Capurso. My work focused on the industrial plants in Lazio in the post-war period, analyzing them from the perspective of construction and engineering applied to architecture. Activities included site inspections of the plants and archival research (Central State Archive, MAXXI Architecture Archives, company and designers' archives). We worked with the IT company Logix on designing an online platform for communicating research results and developing analytical sheets. Additionally, part of the National Research Council's collection at the Central State Archive was inventoried using the Arianna platform. The research results, published in specific essays as listed in the publication list, later allowed the investigation to be extended to other geographical contexts. In particular, work on Vico Magistretti and his industrial building projects in Italy was examined.
Dates (from – to)	02/08/2022 – 30/08/2022
Employer name and address	Polytechnic University of Turin Viale Mattioli, 39, 10125 Turin, IT
Type of company or sector	University
Type of employment	Research activity, Law 240/2010, art. 18, paragraph 5, point C
Main duties and responsibilities	In the 'Manuela Noelli Ziviani' research grant funded by the Compagnia di San Paolo on the History and Transformation of Churches of the Late Twentieth Century: the case of Maria Santissima Immacolata in Aosta, supervised by Prof. Andrea Longhi, I conducted an in-depth study on the construction phases and subsequent adaptations of this church. Using materials from the parish archive, the diocesan archive of Aosta, archives of local architects, and the Vatican Apostolic Archive, I prepared work that was publicly discussed with the local community, aiming at a future liturgical adjustment respectful of the architectural and stylistic integrity of the church.

PARTICIPATION IN RESEARCH PROJECTS

2025–2029	Researcher, <i>Cost Action A Glossary of Technical Construction Vocabulary in 17th–18th Century European Court Residences (EUROGLOSS)</i> , coordinated by Valentina Burgassi (Turin Polytechnic University)
2025–2026	Researcher, <i>The Architecture that Lived Twice: Knowledge and Intervention in Contemporary Architectural Heritage</i> , coordinated by Gianluca Capurso (Tor Vergata University of Rome), funded by Directorate-General for Contemporary Creativity of the Italian Ministry of Culture, Architettura Sostenibili X call (€87,500) I helped design and coordinate the research, involving scholars, selecting case studies,

identifying companies for virtual reality experience design, and publishers for the final volume. I also contribute to the design of the collective volume and the organization of the final presentation event.

- 2024–2025 Research Lead for *Hierophanies of Light: Postwar British Churches in the RIBA Photography Collection*, funded by the Directorate-General for Contemporary Creativity of the Italian Ministry of Culture, Strategia Fotografia 2024 grant (funding: €14,700).
- I studied photographs of postwar churches in the Royal Institute of British Architects photographic archive in London. The research received sponsorship from Docomomo International, Docomomo Italy, and the Cherubino Ghirardacci Study Center.
- 2024–2025 Vice-Coordinator, Blended Intensive Program (BIP) *Regimescape*, coordinated by Maria Grazia D'Amelio (Tor Vergata University of Rome), funded by Erasmus+ BIP grant (€8,000).
- I contributed to the design and coordination of the research and related workshop, involving scholars and students from universities in Lisbon, Granada, Bochum, Bamberg, and Berlin. The workshop explored the history and legacy of natural and urban landscapes altered by 20th-century regimes. Activities included visits to Rome neighborhoods reshaped under fascism and to newly founded cities in the Agro Pontino region.
- 2023–2024 Vice-Coordinator, *Pop-up Structures for Culture: Analysis and Documentation for Future Sustainability*, coordinated by Gianluca Capurso (Tor Vergata University of Rome), funded by the Directorate-General for Contemporary Creativity of the Ministry of Culture, Architetture Sostenibili X call (€78,000).
- I helped design and coordinate the research, involving scholars, selecting case studies, identifying companies for virtual reality experience design, and publishers for the final volume. I also contribute to the design of the collective volume and the organization of the final presentation event.
- 2023–2025 Junior Researcher, *Building Civic Identities*, Coordinated by Marco Folin, funded by PRIN 2022 funds, Polytechnic University of Turin, University of Catania, University of Genoa, University of Padua, University of Rome Tor Vergata.
- As a member of the Rome Tor Vergata unit, coordinated by Prof. Maria Grazia D'Amelio, I participated in research on municipal buildings in Lazio, collaborating on the drafting of an Atlas of municipal buildings, contributing to working groups defining datasheets, objectives, and methodologies.
- 2023–2025 Junior Researcher, *Crafted in Stone / Recorded on Paper*, coordinated by Isabella Balestrieri, funded by PRIN 2022 PNRR funds, Polytechnic University of Milan, Polytechnic University of Turin, University of Genoa, University of Padua, University of Rome Tor Vergata.
- I took part in research focused on municipal buildings in Lazio, especially the foundation towns of the Agro Pontino. The work included cataloging and digitizing materials related to municipal buildings in the Central State Archive, the Latina State Archive, and municipal archives.
- 2022–2023 Research Group Member, *The Church of Cristo Re in Rome*, University of Rome Tor Vergata.
- Alongside Claudia Conforti, Maria Grazia D'Amelio, Roberto Dulio, and Marzia Marandola, I conducted archival research on the history of the church designed by Marcello Piacentini (1920–36), focusing on the relationship between the building and both national and international sacred architecture.
- 2021–2023 Co-Coordinator, *On The Move: L'Architettura è Mobile*, Universidad Complutense de Madrid, University of Rome Tor Vergata, IUAV University of Venice, Giorgio Cini Foundation, funded by the Spanish Government,

Ministry of Science and Innovation.

With C. Conforti, M.G. D'Amelio, M. Marandola, and H. Perez Gallardo, I helped design and lead research on building relocations, examining technical, iconographic, preservation, and symbolic aspects. The research was presented at international conferences. Together with Renata Codello and others, I organized the conference *On the Move: Architecture is Mobile*, featuring international scholars. Research results will be published in an upcoming volume.

2021–2024 Research Group Member, *Giovanni Fallani*, Coordinated by Massimo De Vico Fallani.

I studied the cultural activity of the Catholic monsignor Giovanni Fallani, particularly within the Pontifical Central Commission for Sacred Art in Italy, which he chaired from 1956. Using materials from the Vatican Apostolic Archive, the Vicariate of Rome Archive, and Fallani's private archive, I reconstructed his role and that of the Commission in shaping modern Italian sacred architecture. The results are included in a forthcoming chapter of a volume dedicated to Giovanni Fallani.

2021–2022 Research Group Member, *Franco Antonelli*, Coordinated by Paolo Belardi and Marzia Marandola, funded by Pro Foligno.

Within the group, I explored Franco Antonelli's formative years, focusing on his university years in Rome, professional collaborations with Luigi Pellegrin and Ciro Cicconcelli, and early independent projects. Research results contributed to a chapter in a volume on the architect.

2019–2020 Research Group Member, *Palazzo Riario (della Cancelleria)*, University of Rome Tor Vergata, coordinated by Claudia Conforti.

This research, promoted by the Administration of the Patrimony of the Apostolic See (APSA), reconstructed the construction phases of Palazzo della Cancelleria in Rome, with particular focus on the studies of its wooden ceilings. Results were published in an essay included in a volume on the building's restoration.

2017–2021 Research Group Member, *Wood, Luxury, Antiquity and Crafts in the Coffered Ceilings of Renaissance and Baroque Rome*, University of Rome Tor Vergata, coordinated by Maria Grazia D'Amelio.

I actively participated in research on Renaissance lacunar wooden ceilings coordinated by Maria Grazia D'Amelio and Claudia Conforti. Activities included site visits, photographic documentation, 3D reconstructions via photogrammetry, and in-depth study of bibliographic and archival sources. Results were presented at international conferences and published in chapters and specialized journals.
